1	wrapper package	3
1.1	torch_scope.basic_wrapper module	3
1.2	torch_scope.wrapper module	3
2	spreadsheet writer	5
2.1	torch_scope.sheet_writer module	5
3	Indices and tables	7

A Toolkit for training pytorch models, which has three features:

1. Tracking environments, dependency, implementations and checkpoints;
2. Providing a logger wrapper with two handlers (to ``std`` and ``file``);
3. Supporting automatic device selection;
4. Providing a tensorboard wrapper;
5. Providing a spreadsheet writer to automatically summarizing notes and results;

CHAPTER 1

wrapper package

1.1 torch_scope.basic_wrapper module

1.2 torch_scope.wrapper module

CHAPTER 2

spreadsheet writer

2.1 torch_scope.sheet_writer module

CHAPTER 3

Indices and tables

- `genindex`
- `modindex`
- `search`
